First Information Circular

Dear Colleagues,

we welcome you to participate in the All-Russian Scientific Conference with International Participation 'Permanent Studies of Forest and Moist Biogeocoenoses: Ecology, Production Process, Dynamics' to be held on September, 14-23, 2016 at the Institute of Biology, Komi Science Centre, Ural Division RAS in Syktyvkar (Komi Republic, Russia).

Main topics:

1. Forests biogeocoenoses: components and interlinks between them, dynamics, productivity;
2. Moist biogeocoenoses: diversity, ecology, functions;
3. Monitoring of forest and moist ecosystems;
4. Methodology and methods of permanent studies.

Types of reports

They can be plenary, session, and poster reports. Scientific excursions are included into the Conference program. On-line participation is impossible.
